ANNUAL REPORT 2010-2011

WOMEN ORGANIZATION FOR RURAL DEVELOPMENT

Khajuria, Akul, Sirigida, Keonjhar - 758 076, Orissa, India

E-mail: wordkjr@rediffmail.com

Website: www.wordindia.in

FROM THE SECRETARY'S PEN

It is my pleasure that WORD Keonjhar has reached at 19yrs and brought out its 19th Annual report. Since 19 yrs it has been working for the all round development of the PTG like Juang, Gonda and Mallhar, SC, ST and other back ward caste in the District of Keonjhar and Deogarh. Our major areas of concern are creating awareness programme on different issues and sensitize the tribal community especially the women to be self reliant to identify issues and means for resolvement. Moreover we want to see the all round development of the men and women in an organized way being oriented on the most effect way of solving the issues i.e. through Lobby & Advocacy. We have highly been successful in most of our activities like programmes on education, Sustainable livelihood and empowerment of women etc. We have a lot of campaigns on different issues.

We have to accomplish so many developmental activities with limited resources, Still the noble thought of service to Poor is service to God is inspiring and propelling us to move forward in serving the tribal, aiming at the provision of basic amenities. As the programmes and requirements are many but the resources are limited as a result, the acceleration of the progressive work is at a slow motion. Many a times we have been dishearten and disinterested in our working area with the assigned projects and the strong challenges like elephant menaced, moist influence, transportation and the present e-communication faced by us all through the way, since the project areas are in the remote packages of terrace and dense forest with zigzag route. As we have learnt, failure is the pillar of success; in our endeavor we learnt how to struggle harder in order to achieve our goal with incessant efforts.

I am thankful to the Supportive agencies that have extended their generous hand holding support. I am also highly grateful to all our friends and well wishers who have stood by us with their moral support and cooperation. I would also like to extend my heartfelt gratitude and thanks to all my staff members who have kept up incessant dedicated services day and night for the upliftment of the community and the organization as a whole.

There is a long way to go and a lot of things have yet to be done for the people. Expecting the support and cooperation of all, I again thank all of them who are behind WORD for all time to come.

Administrative scenario of WORD:

Life sketch of WORD:

Women Organization for Rural Development (WORD) took birth in the year 1990. At its initial stage it was basically working in the following areas:

- Women Development
- Environment
- Total Literacy Campaign and Post Literacy Campaign
- Health

However gradually it started growing and took up its initiative in working in more areas like:

- Women Empowerment
- Natural Resource Management
- Education
- Health & Nutrition
- Self Governance System
- Lobby and Advocacy, livelihood development of marginalized section

In the year 1990 WORD got birth and latter on associated with likeminded social activist, tribal service promoter and organization of same line. With an aim of extending its service scopes touching to the every corner of the tribal section WORD was registered under the society registration Act 1860 in the year 1992. In course of time it got support from various agencies both from within and outside the State which has helped it to march ahead. At present WORD is working in Keonjhar District. WORD is not only working within the periphery of Keonjhar but it has widely spread its horizon beyond the district like to Deogarh District.

The head office of WORD is located at Khajuria of Akul of Keonjhar district. WORD has five field offices which are located in five different places: which are Telkoi at Khuntapada, Banspal at Hatapada, Joda of Keonjhar and in Deogarh at Dudhianali and proper Deogarh town.

Plunge Areas of WORD:

- ◆ Women Empowerment
- ◆ Sustainable livelihood
- ◆ Education
- ◆ Health
- ◆ Environment protection
- ◆ Strengthening Self Governance System

Women Empowerment:

The process of women empowerment means it enables the women to understand themselves, their position, their capabilities and what they can do for the all round development of the society with or without men's assistance .In a more defined way, as it were, it strongly enables them to exercise their rights for a just share in the acquisition of power and resources in all respect.

Objective of the Project:

To empower the women through capacity building of various stake holders by ensuring the food security among them with availing of the right over natural Resources.

Implementation Procedure:

Create awareness and build capacity within the women addressing the different issues through establishment of various linkages with the involvement of different stake holders.

Environmental protection is a practice of protecting the environment, on individual, organizational or governmental level, for the benefit of the natural environment and (or) humans. Due to the pressures of population and our technology the biophysical environment is being degraded, sometimes permanently. This has been recognized and governments began placing restraints on activities that caused environmental degradation. Since the 1960s activism by the environmental movement has created awareness of the various environmental issues. Protection of the environment is needed from various human activities. Waste, pollution, loss of biodiversity, introduction of invasive species, release of genetically modified organisms and toxics are some of the issues relating to environmental protection.

Health:

Health is a major concern of both individual and the state manhood. It is said health is wealth and a better society is expected from a good health system .In India, comparison to other developing countries of the world the IMR&MMR is still in a state of pensive .Especially in the tribal pocket of the backward state and district people suffer a lot due to ignorant and unreached health system as a result mother s are at high risk during and after delivery.

The new born are subjected to be affected with various infectious diseases because of in hygienic condition and lack of home based baby care system. Dreaming for the better society means ensuring mothers and children health at first, because children are the future of the country. So ensuring their healthy growth and development ought to be the prime concern of every society.

WORD works in the health sector particularly on issue related to maternal and child health. It also works with the support of OSACS with people affected in HIV/AIDS at Joda block to reduce high risk behavior. WORD is of the view that in order to improve the maternal and newborn health by reducing mortality and morbidity relate to pregnancy and child birth .It is essential to build a range of care that increases access to and use of skill care during pregnancy, birth and postpartum period .

WORD with the support of innovation and in association with CONCERN worldwide is working in Maternal and New Born child Health with the introduction of(MNCH-MHA) project, total 83nosof Male Health Activist in 83nos of villages in2nos of Blocks named Banspal and Telkoi of Keonjhar District are facilitating this service with ASHAs being associated with ANM,AWW and ICDS . This project is mainly concerned with the mother and child health care. The major objective of the project is provision for health services to the remote packages covering the PTG, ST, SC and other backward community through male health activists to achieve the ultimate result of reducing IMR and MMR.

Major Activities & Achievements on Health Sector:

- ✓ Workshops on HIV/AIDs were organized at the Gram Panchayat level and a total number of 274 persons were taken each for both a one to group meeting and one to one interaction. Group meetings were done with 7033 person on HIV/AIDS
- ✓ 79520 condoms were distributed for safe sex practice
- ✓ Street plays/*Pala* were performed in the central place of 24 Hat related to issues on HIV and AIDS
- ✓ PRIS have been provided series of Orientations in two Blocks to have conceptual clarity and understanding the key critical Health and Nutrition issues and lacunas in order to jointly plan for quality improvement.
- ✓ Gram Panchayat took decisions to conduct regular meetings especially discussing the key issues related to Health and Nutrition and service provisions of ICDS on Health in presence of service providers-AWW and HW(F)s.
- ✓ 83nosof Male Health Activist(MHA) in 83nos of villages in2nof of Blocks like Banspal and Telkoi are responsible to provide health services with ASHA and being associated with the ANM,AWW and to the ST,SC.PTG and OBC aiming to reduce the MMR and IMR

FRA

Forest Right Act -06 is a concept relating to the tribal right over forest land as it is strongly associated with their lives and livelihoods. But since the independence it was under the Govt jurisdiction in the purview of forest and environment Deptt. But taking the above facts in to consideration the Govt of India decided to give some rights to adjacent tribal people over the forest land for the preservation and utilization for their livelihoods .So in the year 2006 the Govt of India with the consultation of forest and environment Deptt and Tribal welfare Deptt passed an act namely FRA-06. With these benevolent steps of the Govt tribal got an opportunity to use the forest land for their livelihood purposes. During the reporting period total **8153**nos of application had been filed under FRA-06. Out of those application **2695**nos individual got land entitlements.3nos of community clams have been finalized and **148** women headed family have got land entitlements. Rest **3550** nos of claim forms are under processing, as the Govt procedure follows the principle of redtapism. However, the applications on community claims have not been verified yet, let alone considered and disposed of. The Project functionaries are nevertheless carrying forward their lobbying exercise with the concerning Govt. authorities for early disposal of community claims.

NREGS Facilitation

The MGNREGA which is in a state of crux all over the state and Keonjhar district is not free out of that situation. Here also people are being deprived of getting the opportunity in a proper way. But in course, tribal people were sensitized and demanded job for their sustenance. 1744nos of job card holders had applied for jobs and out of this number1698 only nos of job card holders got job creating an average 60 nos of man days. As a result a number of durable assets were created like firm ponds, Balibandhas, Village ponds reclamations, road connectivity and many more for the sustenance of their life.

Case study:

A BAMBOO IS A RAY OF HOPE

Jagat Dehury, age 30 a physically challenged person of Mundula Village in Bayakumutia GP under Banspal Block. His family is consisting of two members he and his mother, Sumati Dehury, widow 52 years.

He is a poor and marginal farmer having only 50 decimals of land holding. He was being humiliated by the villagers due to his poverish and physically challenged condition. Two meals in a day for his family was a question mark. But with the intervention of lead Organization of Keonjhar District WORD and its SRI method, Jaga got a means to live. He understood the system and benefit from the SRI system and made up his mind to adopt it in his cultivation.

Jaga applied the system in his field but the major problem faced in the cultivation, is the scarcity of water due to draught situation. Taking to the water crisis situation Jaga did not become broken hearted. He thought of a plan how to save his green field. Ultimately he found out a solution and that is the use of the stream water which is flowing near the fields. But how could he use the flowing water, as he is poor and he has no capacity to hire a pump set to draw water from the stream. But as the necessity is the mother of invention.

Jaga thought of a plan and implemented it through a long 18 feet bamboo pipe. He used his innovative idea, cleans the knots by making holes in the Bamboo and catches the flowing water at the dropping head and channelized the water and solved the irrigating problem in his SRI cultivation field. Now his field is in growing stage with the full of green hills bearing 45nos tillers.

Nobody could not but commend to his innovative idea. Now he is proud of his innovative invention

Partner Organizations during the Period 2010-2011

WORD has been able to carry out its work in the above mentioned various areas with the generous hand holding support of various organizations/institutions/departments both within and outside the State.
